Letter from the President

Dear students,

Our era is characterized by increasing globalization. Every day, technological advances that allow for the instant transmission of information change the way we communicate, the way we work, the way we learn and the way we live our lives. At the same time, international trade and tourism and worldwide media communication are expanding. Individuals, corporations, markets, and nation-states can reach around the world faster and more cheaply than ever before. Traditional boundaries between culture, commerce, technology, politics, and the environment are rapidly disappearing. National borders are no longer barriers to learning, living, and working. People may speak different languages, eat different foods, and worship in different ways, but we do not do so in isolation. The world today is a global village and we are all members of the same community.

Our aim is to provide you with the knowledge, experience, and multicultural perspective that will allow you to explore, learn, question, create, and thrive as productive members of a global society in your chosen careers. We are dedicated to an interactive teaching style, and we maintain high expectations for our students and high academic standards in the classroom. We are committed to giving you the personal attention, support, and care necessary for you to succeed and realize your full potential.

Ilias Foutsis, Hon Ph.D, President, University of New York in Prague & New York College Educational Group

STUDENT TESTIMONIALS

Matouš Janda, Czech Republic

Small classes (an average of only 18 students), an individual approach and opportunities for practical experience at various companies and institutions really make UNYP special. I just finished a six-month internship at the US Embassy, which made my Prague experience all the more interesting.

Nicole Severin, Czech Republic

I was delighted that I could study for an American degree while staying in the Czech Republic. Studying in a school with students from over 65 different nationalities allows for an amazing cultural mix, and we all learn a lot about other cultures during interactions in and out of class. My best friend is from the Seychelles, and my professors are from the States, Ireland and Britain.

Paulína Vráblová, Slovak Republic

I decided to study at UNYP based on a friend's recommendation, and I am very happy here. I like the teaching experience – small groups and an interactive teaching style with plenty of discussions between students. The professors have a lot of practical experience as they have worked in their fields for many years, and now share their know-how and experience with us in class. UNYP's cultural diversity is great, and I have friends from all over the world. Under the UNYP international program, we can spend a semester abroad studying with one of their accredited partners' universities – another great benefit. I am a happy UNYP'er!

Sara Crutcher, USA

When choosing a city in which to study abroad, there were many options, but one was a clear cut above the rest – Prague. Not only would I get a chance to immerse myself in one of the richest cultures in Europe, but I would be provided with an opportunity to continue my classes at a top-notch school, the University of New York in Prague. If anyone is considering an exchange program, without question, I recommend making your way to the Czech Republic.

SUCCESS STORY

PEPA JUHA
CLASS OF 2022

What I enjoyed most about this program is that the students got direct involvement and experience with real-life scenarios. For example, in the Sport Marketing course, our assignment was to reach out to real, existing clubs and help them create a partnership proposal, which they would eventually use during negotiations with potential partners and sponsors. During my studies I was able to learn from guest speakers from the Czech Floorball Federation, Sport Invest, Česká Spořitelna, Coca Cola, Prague Lions American Football and many more. I even had the opportunity to spend a couple of months as an intern for the Czech Olympic Committee. As an active athlete, I feel that UNYP's Business Administration course with a concentration in Sports Management has prepared me well for my life after sport.

SUCCESS STORY

ROBIN NGUYEN
CLASS OF 2017

Robin Nguyen graduated from UNYP with a bachelor's degree in Communication and Mass Media in 2017. He gained his all-rounded marketing skills from local advertising agencies and spent one year opening a business with his fellow alumni. In 2021 he returned to UNYP as a Senior Marketing Coordinator where he utilized his extensive knowledge of UNYP and its students. Today, after his appearance in the TV show "Masterchef Česko", he follows his passion in the field of gastronomy, where he manages events for Foodway Catering, a prominent catering company in Prague.

"UNYP continues to play a vital role in my life. Not only did I receive a foundation for the start of my career in advertising, but it was also a place where I could explore multichannel marketing as UNYP is very involved across many channels and partnership marketing. If I can only name a single, most impactful skill, that I took from UNYP, then I would have to name the progressive, critical thinking mindset, which is characteristic of most UNYP students. With this approach, I was not afraid to attack any challenge with enthusiasm and a healthy amount of confidence. I could put this to use when I was opening a new business or when I went on TV to compete in a reality show."
